Joint RP-US military exercises to continue despite strained ties

By TJ Burgonio

JOINT military exercises between Filipino and American troops will continue as scheduled in the next four months despite the strained relations between the Philippines and the United States in the aftermath of last month's pullout of Filipino troops from Iraq.

After the recent joint exercise, codenamed *Balanced Piston 04-3*, ended on Friday in North Cotabato, another joint naval exercise, dubbed *Relah 05-1*, kicked off in Mindanao, officials of the Department of Foreign Affairs said yesterday.

These joint exercises show that the relations between the two countries are "on track," Foreign Affairs Secretary Delia Albert said.

Balanced Piston, staged for three weeks in Cernien starting July 26, honed the skills of 199 Filipino troops from the Army's 602nd Brigade in marksmanship, combat medical skills and small unit tactics, said Foreign Undersecretary Zosimo Paredes II.

The joint training, a component of the military assistance program under the Visiting Forces Agreement, has been hailed a success by Philippine and US officials, added Paredes, executive director of the VFA Commission.

"The joint military training shows that our relations with the United States are firmly on

track," Albert said in a statement.

The Philippine government's decision to withdraw its 51-man humanitarian contingent from Iraq to save a Filipino truck driver held captive by Iraqi militants last month had set off speculations that the Philippines could face backlash from the United States.

Relah, or *Exercise Pangdagat, Lupa at Himpapawid*, a navy-to-navy exercise involving combat troops of the Philippine Special Warfare Group and the US Navy Seals, kicked off last Aug. 5 and will end on Dec. 31, Paredes said.

It was not known, however, how many troops are involved and the number of ships participating in the exercise.

"If it's marine exercise, any of our coastal areas maybe a site for exercises like this," he said.

Apart from this, an information exchange training, dubbed *RP-US Joint Advisors Intel Fusion Teams*, is simultaneously being conducted in Mindanao, Paredes said. He could not provide further details.

Another naval maneuver exercise, codenamed *Maritime Survey Exercises 04-4* (*Marserver*), has been lined up for the fourth quarter of the year.

"We might have another *Balanced Piston 04-4*, immediately after the just concluded one," Paredes said.

SC bares finalists in judiciary awards

By Philip C. Tubera

THE SUPREME Court yesterday announced the finalists in this year's Judicial Excellence Awards, the high tribunal's spokesperson said yesterday.

Lawyer Samuel Khan Jr., head of the SC public information office, said the SC Committee on Judicial Excellence has trimmed down the list of nominees for the country's most outstanding judges and clerks of court.

The results would be released next week while the awards ceremonies will be held on Sept. 17 at the SC.

Khan said the Committee on Judicial Excellence, through the Board of Judges, will choose the winners for best regional trial court judges, best pre-trial judges, best civil case decision, best criminal case decision and best clerks of court for first and second-level courts.

The finalists for best RTC judges are Henry D. Ades, Juliana D. Azarraga, Elie I. de Guzman, Agustin S. Dixon, Eileen P. Durdum Jr., Marissa M. Guillen, Gabriel T. Ingles, Edgardo T. Liron, Sisto C. Marella Jr. and Myrna D. Vidal.

The winners will be chosen after a review of their efficiency and effectiveness in carrying out their duties and responsibilities and their initiatives, innovativeness and resourcefulness in meeting the exigencies of the service.

The search committee will also take into account the public perception of the nominees' honesty, impartiality, diligence, avoiding impropriety "and appearance of impropriety" in all activities.

Khan said the winners should also be noted for upholding judicial integrity and independence; their contributions to the administration of justice, and leadership in the judiciary and the community.

The Committee on Judicial Excellence is chaired this year by Associate Justice Artemio Panganiban with Justice Antonio T. Carpio as vice chairman. The members are Khan, Court Administrator Presbitero J. Velasco Jr., Atty. Lavinia D. Puno (clerk of court), Atty. Edna E. Diño (chief attorney), and Joseph Bryan Hilary P. Davide (chief justice's staff head).

This is the first time the SC will be handling the search exclusively. Last year, the Committee coordinated with the Foundation for Judicial Excellence, a private organization, which had been managing the search since 1991.

Beginning this year, however, the search will no longer include awards for Outstanding Prosecutors and Public Attorneys which will be now exclusive to members of the judiciary.

Khan said that the tribunal came up with the awards 13 years ago to inspire judiciary members to perform better.

"It's part of the Supreme Court's continuing effort to reform the judicial branch by recognizing its best performers," Khan said.

575 Pinoys still detained in jails in Middle East

By Cynthia D. Salans

AT LEAST 575 more Filipinos, mostly domestic helpers, were still languishing in jails in Kuwait, Israel and Bahrain last year, according to the Department of Foreign Affairs.

This brings the total of Filipino prisoners outside the Philippines to 3,431, and the number of countries reported with Filipino detainees to 59.

Rep. Juan Miguel Zubiri (Lakas, third district, Bukidnon) said the Philippine Embassy in Tel Aviv, Israel reported that from January to June last year, 246 Filipinos were under house arrest, or had pending cases in court.

They were detained in the Ramat, Hadara and Nazareth prisons in Israel. One Filipino, detained at Abu Khlibir maximum security prison, is serving three life-terms for murder.

In Kuwait, 227 Filipinos, 22 of whom are men, were detained during the same period.

But the alleged offenses committed by Filipino women paled in comparison to the offenses committed against them, Zubiri said.

In the first six months of the year, Filipino women lodged with the Philippine embassy, 412 complaints of physical abuse, 255 complaints of verbal abuse, and 525 complaints of oppressive working conditions against their employers.

Zubiri also said that based on the report of the office of the foreign undersecretary for migrant workers affairs in the DFA, majority of the detained workers were not given a day-off by employers.

In Bahrain, a Filipino and a Filipina were in detention during the first half of last year. The Filipina, who was convicted of arson, was the subject of a campaign for royal clemency.

Of last year's total of 3,431 Filipino overseas detainees, 979 were women.

Veritas reporter buried

VICTORIA, Laguna—A convoy of about 60 vehicles carrying relatives, neighbors, town mates from Nagcarlan town and friends joined the funeral procession on Tuesday afternoon of slain Radio Veritas reporter Fernando Consignado, who was killed in Nagcarlan town Thursday last week. The funeral followed a Mass at 2 p.m. in La Resurrection Parish here. Fr. Romulo Pantoja, former Victoria parish priest and Mass celebrant, said in his homily that the death of Consignado, the fourth media casualty in 12 days, was alarming. Consignado's four children, five grandchildren and eight siblings were all on hand for the Mass and the interment at the Garden of Angels Cemetery here. His killer, who shot the victim in the head, is still at large and remains unidentified. *POJ Southern Luzon Bureau*

36 solons form women's bloc

SOME 36 congresswomen in the 13th Congress have formed the Lady Legislators Bloc to make the women voice strong in the House. Rep. Cynthia Villar (Nationalista Party-Las Piñas), who was elected co-mover and president of the bloc for the second time, said the group was a force to reckon with in the 12th Congress. The group, together with the House committee on women, were behind the enactment of women and family-related measures that included the Anti-Trafficking of Women and Children Act, the Anti-Domestic Violence Act, and an Act Eliminating the Worst Forms of Child Labor and Affording Stronger Protection to Children. In the past three years, the women's bloc in Congress launched various programs for the benefit of the women sector ranging from free medical services, and plays regarding courage of women. These include the "Vagina Monologue" and "Ang Hukit at Hinagkit ni Victoria Lakaw." It also sponsored massive discussion of women's rights and pushed for the implementation of Gender and Development (GAD) fund for women's concerns. *Cynthia D. Salans*

Business backs GMA appointees

LEADERS of the country's largest business groups have expressed full support for President Macapagal Arroyo on her appointments to the Cabinet as they denied media reports that erroneously quoted them as pushing for the retention of three Cabinet secretaries. The statement of support was issued by Moeri Salado, president of the Philippines Chamber of Commerce and Industry (PCCI); Donald Dee, president of the Employers' Confederation of the Philippines; Sergio Ortiz-Lutz, president of the Philippine Exporters Confederation; Francis Chua, chair of the PCCI Philippines Foundation; and Miguel Varola, chair emeritus and president of the PCCI Philippines Inc. Foundation. They said the President should have a free hand in her appointments, and in choosing who she feels would be the best and brightest of the candidates for her cabinet. The business leaders also expressed full support for the appointment of Arthur Yap as agriculture secretary.

DOF seeks powers to prosecute grafters

By PH Staff • business@philippinebusiness.com

MANILA — The Department of Finance (DOF) is seeking powers to prosecute grafters in the private sector, a move that would allow the department to take action against corrupt officials and companies.

The DOF is currently in the process of drafting a bill that would give it the authority to investigate and prosecute grafters in the private sector. The bill is expected to be passed by the House of Representatives in the near future.

Summary of the Study

Study Design: A cross-sectional study was conducted among 1000 participants aged 18-65 years.

Data Collection: Data were collected through a series of questionnaires covering demographic information, lifestyle factors, and health status.

Analysis: Descriptive statistics were used to summarize the data. Logistic regression analysis was performed to identify risk factors associated with the outcome variable.

Results: The results showed that age, gender, and education level were significantly associated with the outcome variable. Higher levels of education were associated with lower odds of the outcome occurring.

Conclusion: The findings suggest that educational attainment plays a role in the occurrence of the outcome variable. Further research is needed to explore the underlying mechanisms.

Good old days are back

By the Manila Times Staff

Nostalgia is a powerful emotion that can transport us back to a time when life was simpler and more carefree. For many Filipinos, the "good old days" are a distant memory, but they are still a part of their lives. The good old days are back, and they are here to stay.

But to preserve the spirit of the traditional Spanish cuisine.

Restaurant owners in the United States are increasingly turning to Spain for inspiration. The country's rich culinary heritage, with its emphasis on fresh ingredients and simple preparation, has become a source of inspiration for many chefs.

One of the most popular Spanish dishes, tapas, has become a staple in many American restaurants. Tapas are small portions of food, often served with wine, and are a great way to introduce diners to the flavors of Spanish cuisine.

Another popular Spanish dish is paella, a rice-based dish that is often served with meat and vegetables. Paella is a great way to introduce diners to the flavors of Spanish cuisine.

Finally, Spanish wine is also becoming increasingly popular in the United States. Spanish wine is known for its bold flavors and long history, and it is a great way to introduce diners to the flavors of Spanish cuisine.

As more Americans discover the joys of Spanish cuisine, it is likely that the popularity of Spanish food and wine will continue to grow in the years ahead.

As another factor, the 1991 election, which was won by the Conservative Party, brought back a Conservative government. This in turn led to a change in the way the NHS was run, with a new emphasis on cost-cutting and efficiency. This led to a reduction in the number of staff, which in turn led to a reduction in the quality of care.

Finally, *Shakespeare's Comedy* is a useful study companion for students studying any one of the great comedies, *Twelfth Night*, *As You Like It*, *A Midsummer Night's Dream*, or *Twelfth Night*. It offers a clear and concise introduction to the play, and a full and detailed study of the play's themes and characters.

There is a growing body of evidence that the use of a single, standard, non-validated questionnaire to assess the prevalence of depression in the community is inadequate. This is because the prevalence of depression varies with the instrument used, and the prevalence of depression varies with the population studied. The prevalence of depression is also affected by the definition of depression used, and the prevalence of depression is affected by the method of data collection. The prevalence of depression is also affected by the time of day, the time of year, and the time of the study.

The authors of the study, led by Dr. David A. Asch, a professor of psychology at the University of Wisconsin-Madison, found that the more people in a group, the more likely they were to conform to the group's decision. The study also found that the more people in a group, the more likely they were to conform to the group's decision, even when the group was wrong.

There is a growing body of research that suggests that the use of technology in the classroom can enhance student learning and engagement. This research is based on the idea that technology can provide students with access to a wide range of resources and tools that can help them to learn more effectively. For example, students can use technology to access online resources, such as videos and interactive simulations, which can help them to understand complex concepts more easily. Additionally, technology can be used to create a more personalized learning experience for each student, allowing them to learn at their own pace and in a way that is most effective for them. This research also suggests that technology can be used to improve student engagement in the classroom, as students are more likely to be motivated and interested when they are using technology to learn. Overall, the research indicates that technology can be a valuable tool for enhancing student learning and engagement in the classroom.
